PARTNERING TO SCALE-UP CLIMATE- SMART AGRICULTURE IN AFRICA

DATE: 2 DECEMBER 2015

TIME: 15:00 – 16:30

VENUE: OBSERVER ROOM 03

Photo: S. Kilungu (CCAFS)

Across Africa, there is plenty of action to support grass-root scaling-up of Climate-Smart Agriculture (CSA). Initiatives include piloting of policies and creation of new institutions, with the overall goal of building resilience and livelihoods of African small-scale farmers in a changing climate. The side event will explore innovative partnership approaches to achieve CSA and show multi-sector collaborations in action, highlighting progress to date, and upcoming developments.

His Royal Highness Prince Seeiso Bereng Seeiso
Kingdom of Lesotho

Kisilu Musya
Farmer representative

Martin Bwalya
The New Partnership for Africa's Development (NEPAD)

Chikakula Miti,
Common Market for Eastern and Southern Africa (COMESA)
